Cabernet Sauvignon

A.B.V.: 13.5%

Varietal

- 100% Cab Sauvignon

Location/Production

- The J Ryland Cabernet Sauvignon varietal vineyards are located in the Lodi Region of California.
- As a result of the cool nightly breezes coming from the San Francisco Bay and the Delta waterways, our grapes mature in cool nights and warm sunny days.
- Our vineyards benefit from the deep, rich soils of the Lodi Appellation.
- The grapes are cultivated to have a balance between fruit character and structure.
- The J Ryland Cabernet Sauvignon varietal grapes are harvested at optimal ripeness, crushed, and fermented in stainless steel vessels.
- Our Varietal is aged in experienced barrels for twelve months.

Color, Nose and Palate

- Our J Ryland Cab Sauvignon has a dark garnet color with aromas of fresh-cut Rosemary, Thyme, and Bay Leaf, Raspberries and Blackberries.
- This medium-bodied wine gives way to a delightful coco powder finish.

Lodi Region,
California, USA
